

Short Due Dates Problem Statement

Author: Andrew Lim, Nhan Do

Group name: Honda Gang

Problem Statement:

- College students are often overwhelmed with projects, assignments, and exams that are due within a short span.

Who is Experiencing This Problem?

- Any college student who is overwhelmed by high workloads caused by projects, assignments, and exams experiences this problem. With assignments overlapping and due dates given on short notice, this is overwhelming for college students.

What Is The Problem?

- College students are often overwhelmed with the amount of workload they are assigned within a short span.

Where Does The Problem Present Itself?

- This problem often presents itself at any time within the school year. This problem can become more difficult for students when multiple assignments, projects, and exams are due within the same week.

Why Does It Matter?

- Students who are overwhelmed with projects, assignments, and exams can often struggle to find time to enjoy themselves outside of school. With students who experience this problem too often, this can often cause issues with mental health.
